

## **Dorset Equality and Diversity Forum**

Do you want to have your say and contribute to the way public services are delivered by your local council, healthcare and emergency services?

Dorset Equality and Diversity Forum includes representative groups for disability, race, gender, sexual orientation, religion/faith/belief and age. The purpose of this forum is for the community to advise public services on how best to involve and consult with the wider community, identify problems that affect people's quality of life and work together to find solutions. You can get involved in a number of ways, by attending meetings, or responding by phone, letter, text or email.
